Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 16.08.2021 Version number 2 Revision: 16.08.2021 Trade name: Marble Filler 1000 Transparent L-Special waterclear Waterclear (Contd. of page 1) H317 May cause an allergic skin reaction. H361d Suspected of damaging the unborn child. H335 May cause respiratory irritation. H372 Causes damage to the hearing organs through prolonged or repeated exposure. H412 Harmful to aquatic life with long lasting effects. If medical advice is needed, have product container or label at Precautionary statements P101 hand. P102 Keep out of reach of children. P103 Read carefully and follow all instructions. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 Do not breathe vapours. Avoid release to the environment. P273 P280 Wear protective gloves / eye protection. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing P312 Call a POISON CENTER/doctor if you feel unwell. P333+P313 If skin irritation or rash occurs: Get medical advice/attention. P403+P233 Store in a well-ventilated place. Keep container tightly closed. Store locked up. P405 P501 Dispose of contents/container in accordance with local/ regional/national/international regulations. · 2.3 Other hazards During processing and product hardening the network generator is released as fume. Consequently, take care for adequate air conditioning and for fume exhaustion on request. · Results of PBT and vPvB assessment · PBT: Not applicable. · vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

· 3.2 Chemical characterisation: Mixtures

Mixture of substances listed below with nonhazardous additions.	
styrene Flam. Liq. 3, H226 Repr. 2, H361d; STOT RE 1, H372; Asp. Tox. 1, H304 Acute Tox. 4, H332; Skin Irrit. 2, H315; Eye Irrit. 2, H319; STOT SE 3, H335 Aquatic Chronic 3, H412	25-50%

	ol-2-yl)-4,6-di-tert-pentylphenol
· Additional information:	For the wording of the listed hazard phrases refer to section 16.
SECTION 4: First aid measu	Ires
· 4.1 Description of first aid n	0035Ur05
· General information:	Take affected persons out into the fresh air.
	Position and transport stably in side position.
	Immediately remove any clothing soiled by the product.
	Symptoms of poisoning may even occur after several hours; therefore medical
· After inhalation:	observation for at least 48 hours after the accident. Supply fresh air. If required, provide artificial respiration. Keep patient warm.
Alter initialation.	Consult doctor if symptoms persist.
	In case of unconsciousness place patient stably in side position for
After akin contact	transportation.
· <u>After skin contact:</u>	If skin irritation continues, consult a doctor. Immediately wash with water and soap and rinse thoroughly.
· After eye contact:	Rinse opened eye for several minutes under running water. If symptoms persist,
	consult a doctor.
· After swallowing:	If symptoms persist consult doctor.
· Information for doctor:	With reference to section 2 the formulation contains styrene in the indicated mass concentration range. Styrene fumes will preferably be incorporated by
	inhalation via respiratory tract, skin resorption is currently considered as an
	inferior way of incorporation. In case of inhalation styrene is absorbed in a 60-
	90% range. Distribution in organism occurs rapidly, the maximum blood
	concentration can be analyzed after one hour after incorporation. Styrene exposition affects skin, mucous membranes, and central nervous system (CNS).
	Acute damages / risks to health:
	In case of styrene poisoning mainly damages to and interactions with central
	nervous system (CNS) arise. In concentration ranges above 200 ml/m3
	symptoms such as fatigue, nausea, imbalance and prolonged response times are observed.
	Chronical health risks:
	Effects at central and peripheral nervous system and respiratory tract are evident
	in literature.
	Main health risks are: - prolonged response times
	- reduced cognitive performance, partial amnesia
	- retardation of nervous impulse transition speed
	- disturbances of pulmonary function
 4.2 Most important sympton and effects, both acute and 	
delayed	Headache
<u>,</u>	Breathing difficulty
	Profuse sweating
	Dizziness Dizziness
	Nausea
	Coughing
· <u>Hazards</u>	Danger of impaired breathing.
	Skin contact with polyester and epoxy resin solutions as ingredient of the product
	should be avoided due to risks of skin irritations or allergic skin appearances. If (Contd. on page 4)

Safety data sheet

according to 1907/2006/EC, Article 31 Printing date 16.08.2021 Version number 2 Revision: 16.08.2021 Trade name: Marble Filler 1000 Transparent L-Special waterclear Waterclear (Contd. of page 4) Store in cool, dry place in tightly closed receptacles. Keep away from heat and direct sunlight. Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air). Use only in well ventilated areas. Ensure good ventilation/exhaustion at the workplace. Information about fire - and explosion protection: Fumes can combine with air to form an explosive mixture. Keep ignition sources away - Do not smoke. Protect against electrostatic charges. · 7.2 Conditions for safe storage, including any incompatibilities · Storage: · Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Prevent any seepage into the ground. · Information about storage in one common storage facility: Store away from oxidising agents. Store away from foodstuffs. · Further information about storage conditions: Store receptacle in a well ventilated area. Keep container tightly sealed. · Storage class: 7.3 Specific end use(s) No further relevant information available. **SECTION 8: Exposure controls/personal protection** · 8.1 Control parameters Additional information about design of technical facilities: No further data; see item 7. · Ingredients with limit values that require monitoring at the workplace: 100-42-5 styrene WEL Short-term value: 1080 mg/m³, 250 ppm Long-term value: 430 mg/m³, 100 ppm 111-46-6 2,2'-oxybisethanol WEL Long-term value: 101 mg/m³, 23 ppm 108-31-6 maleic anhvdride WEL Short-term value: 3 mg/m³ Long-term value: 1 mg/m³ Sen · DNELs 100-42-5 styrene DNEL (Langzeit-wiederholt) 2.1 mg/kg bw/day (BEV) Oral Dermal DNEL (Langzeit-wiederholt) 406 mg/kg bw/day (ARB) 343 mg/kg bw/day (BEV) Inhalative DNEL (Kurzzeit-akut) 289-306 mg/m³ Air (ARB) 174.25-182.75 mg/m3 Air (BEV) DNEL (Langzeit-wiederholt) 85 mg/m³ Air (ARB) 10.2 mg/m³ Air (BEV) 25973-55-1 2-(2H-benzotriazol-2-yl)-4,6-di-tert-pentylphenol DNEL (Langzeit-wiederholt) 0.3 mg/kg bw/day (ARB) Dermal 0.14 mg/kg bw/day (BEV)

<u>Trade name:</u> Marble Filler 1000 Trar Waterclear	nsparent L-Special waterclear
	(Contd. of page 6)
· Additional information:	The lists valid during the making were used as basis.
 <u>8.2 Exposure controls</u> <u>Personal protective equipment:</u> General protective and hygienic 	
measures:	Do not eat, drink, smoke or sniff while working. Use skin protection cream for skin protection. Clean skin thoroughly immediately after handling the product. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.
· <u>Respiratory protection:</u>	Short term filter device: Filter A/P2
· Protection of hands:	In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. After use of gloves apply skin-cleaning agents and skin cosmetics. Preventive skin protection by use of skin-protecting agents is recommended.
	Protective gloves
	 The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Skin protection agent recommendation for preventive skin shelter without use of protective gloves: ARRETIL (http://www.stoko.com) Skin protection agent recommendation for preventive skin shelter in application and combination of protective gloves: STOKO EMULSION (http://www.stoko.com) Skin protection recommendation for skin cleaning after product handling: Kresto Classic (http://debstoko.com) Skin protection gloves to be used have to comply with the specifications of the directive 89/686/EC and the directive derived decree EN374, respectively, e.g. the above listed protection glove type. The mentioned permeation times' data were generated and verified with material samples of the recommended protection glove type in the scope of laboratory anylyses of the company KCL GmbH in compliance with EN374. This recommendation refers exclusively to the material safety data sheet referenced product delivered by Akemi and the indicated field of application. In case of product dilution or in case of mixture with different substances or chemicals, and in condition of EN374 deviation the producer of CE-approved protection gloves must be contacted for detailed information (e.g., KCL GmbH, Germany, 36124 Eichenzell, internet: http://www.kcl.de).
· <u>Material of gloves</u>	Fluorocarbon rubber (Viton) The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Inhalative LC50/1h >4.35 mg/l (r	rat)	
LC50/48h 138 mg/l (ler	n)	
· Primary irritant effect:		
· Skin corrosion/irritation	Causes skin irritation.	
· Serious eye damage/irritation	Causes serious eye irritation.	
· Respiratory or skin sensitisation	May cause an allergic skin reaction.	
· Experience with humans:	After incorporation and inhalation styrene predominantly will be metabolized in the organism to mandelic and phenylglyoxylic acid and matabolites will pass through urine excretion.	
· Additional toxicological information		
· Toxicokinetics, metabolism and	-	
distribution	After incorporation and inhalation styrene predominantly will be metabolized in the organism to mandelic and phenylglyoxylic acid and metabolites will pass through urine excretion.	
· Acute effects (acute toxicity,		
irritation and corrosivity)	Styrene: Artificial special nutrition in rat population, acute LD50 value, oral: 5000 mg/kg. Inhalation, rat population, acute LC50 value (4h): 24 mg/l.	
· CMR effects (carcinogenity,	······································	
mutagenicity and toxicity for		
reproduction)	Styrene	
	Tests for chromosome divergence:	
	Mouse micro-nucleus test: mutagen	
	Styrene:	
	Tests for DNA effects:	
	- exchange of chromatides: mutagen	
Corm coll mutagonicity	- DNA chain fragmentation: mutagen Based on available data, the classification criteria are not met.	
· <u>Germ cell mutagenicity</u> · Carcinogenicity	Based on available data, the classification criteria are not met.	
· Reproductive toxicity	Suspected of damaging the unborn child.	
· STOT-single exposure	May cause respiratory irritation.	
· STOT-repeated exposure	Causes damage to the hearing organs through prolonged or repeated exposure.	
· Aspiration hazard	Based on available data, the classification criteria are not met.
