### HOW TO USE IT

**Dilution:** according to use

**For cleaning and degreasing all surfaces.** Dilute in water (1:10-1:20) and apply on the surface. Leave to act for 4-5 minutes before brushing with a single-disc floor scrubber or scrubbing brush. Use a cloth or liquid vacuum cleaner to clean any residues and then rinse thoroughly.

**For a more vigorous cleaning, dilute 1:5. To remove stains from porcelain tiles:** Pour undiluted onto the stain and the entire tile. Leave to act until fully dry, then wash and rinse the surface.

**To remove wax:** Dilute 1:5, apply on the surface and leave to act for 10 minutes. Clean using a scrubbing brush or single-disc floor scrubber. Use a cloth or liquid vacuum cleaner to clean any residues and then rinse thoroughly.
